

Renting from HAKI Rentals - House Magnolia

When: November 2020 to Oct 2024 (4 Years)

We found Alex and Sandra's Magnolia House in October 2020 when we did a 2 week trip to Panama to sort out our residency. We ended up moving in November 2020. We knew we wanted to stay in the Volcan area of Panama due to it's fantastic weather (no air conditioning and open windows year round). We also needed a completely furnished place as we had sold up everything to move. We were immediately taken with the western style home: 3 bedrooms, 3 bathrooms, dining room, covered porch, covered parking for 2 cars, with a fenced in yard (suitable for dogs – we started off with one and ended up with three). Full plumbing, hot water in the kitchen, laundry and all bathrooms (not guaranteed to Central or South America) and western style septic tank (TP goes in the toilet, not in a separate trash can).

Equipped with everything you need, including linens, towels, fully equipped kitchen & laundry. Move in and carry on with your life. Very comfortable. And all gardening & lawn services is included and taken care of.

And whenever there was an issue, Alex was very quick to respond and resolve it. We own rentals in the US, so we appreciated his responsiveness.

We ended up buying some property and building a house, else we would still have been there.

I highly recommend House Magnolia if you are looking for an easy, comfortable place to live in a nice safe area.

Good luck.

Paul & Pat
